1.ABSTRACT

This document defines the theory and technology behind the Hybrid 3.0 edition. The entire mechanism works in tandem with secure and robust contracting to serve global citizens to fulfil their real-time needs.

2. What is Hybrid?

Hybrid is a Binance Smart Chain token that aims to "accelerate the transformation of gaming and providing solutions to the blockchain world by introducing next-gen DeFi ecosystem, valuable NFTs, user-friendly DApps and beyond."

3. HYBRID TOKEN & BEYOND

3.1. GAMING REVOLUTION

With over two billion gamers worldwide, only a top few are minting money. Hybrid tends to resolve this issue by providing rewards and bonuses to every gamer playing blockchain games while building utility apps, investing in futuristic projects, constructing advance eco system and revolutionizing blockchain sphere.

3.2. DISRUPTION IN BLOCKCHAIN

Hybrid will soon launch its Exchange, Decentralized Games and Social Media app, NFTs, and the big reveal its very own 'Blockchain Technology' with infinite possibilities.

3.3. VENTURE CAPITALIST

Making our Money work for us! Investing in blockchain-based businesses that are small; or exist only as an initiative but have tremendous potential to thrive.

4. VISION

Our vision is to lead the blockchain revolution in order to create a global crypto marketplace.

5. MISSION

Our mission is to create a market place with global reach To provide a most secure and trusted platform.

6. VALUE

Money is the by-product of the value we instil in someone's life. We firmly stand to bestow optimum value and impeccable solutions to bring growth and comfort to fellow human's life.

"People don't buy what you do, they buy why you do it."

7. FUTURE

Hybrid is an automated people-oriented entity that is working towards hitting the zenith of Blockchain technology potential. Once initiated, Hybrid growth is projected to be ceaseless, and with time being, the audience is sure to witness unprecedented apps, systems, games and beyond.

8. UNIQUE SELLING PROPOSITION

8.1. BLOCKCHAIN GAMES

Hybrid is a gaming token mined to fund blockchain gaming and introduce high-tech multiplayer online battle arena (MOBA) games.

Majority of the games will be AI (Artificial Intelligence), VR (Virtual Reality) & AR (Augmented Reality) technology-enabled, revamping the entire gaming galaxy.

Through Hybrid games, players will get lucrative benefits, as each game will have an algorithm for sharing rewards and bonuses.

**100% Transparency. No Hidden Charges.
Absolute Transaction Visibility**

8.2. LEGITIMATE TEAM

We're a fully distributed team spread across continents unified by a mission to create a gaming token and provide blockchain solutions to the world.

From tech geeks, finance veterans, driven managers to master marketers, every individual working in the proximity of Hybrid vision.

8.3. AUDITED CODE

Comprehensive analysis of the code makes our system novel. Due to auditing, there stand no possibilities for bugs, security breaches or violations of programming protocols. It is an integral part of our process before the token launch, guaranteeing absolute security.

While auditing code, every critical component has been audited separately and together with the entire program, ensuring the swift and legitimate token distribution.

8.4. PRACTICAL USECASE

Initially, cryptocurrency was considered a source of investment. With the dawn of tokens such as Citrus, one could practically use digital currencies to buy groceries to real estate, literally everything fiat money could do and more.

With Hybrid Tokens, exchanges will happen at a low cost and high speed throughout the globe.

Also, it can grapple with the bursting inflation imparting a sense of growth & security to investor and holders.

8.5. AFFIX SYSTEM

The giant whales and humpbacks in the system have made the cryptocurrency world volatile. However, through the **Affix system**, an **investor can hold limited worth of Hybrid Token** in a single wallet until the conclusion of Private sale.

PROS:

- Low-Risk

- High-Return

- Truly Decentralized Token

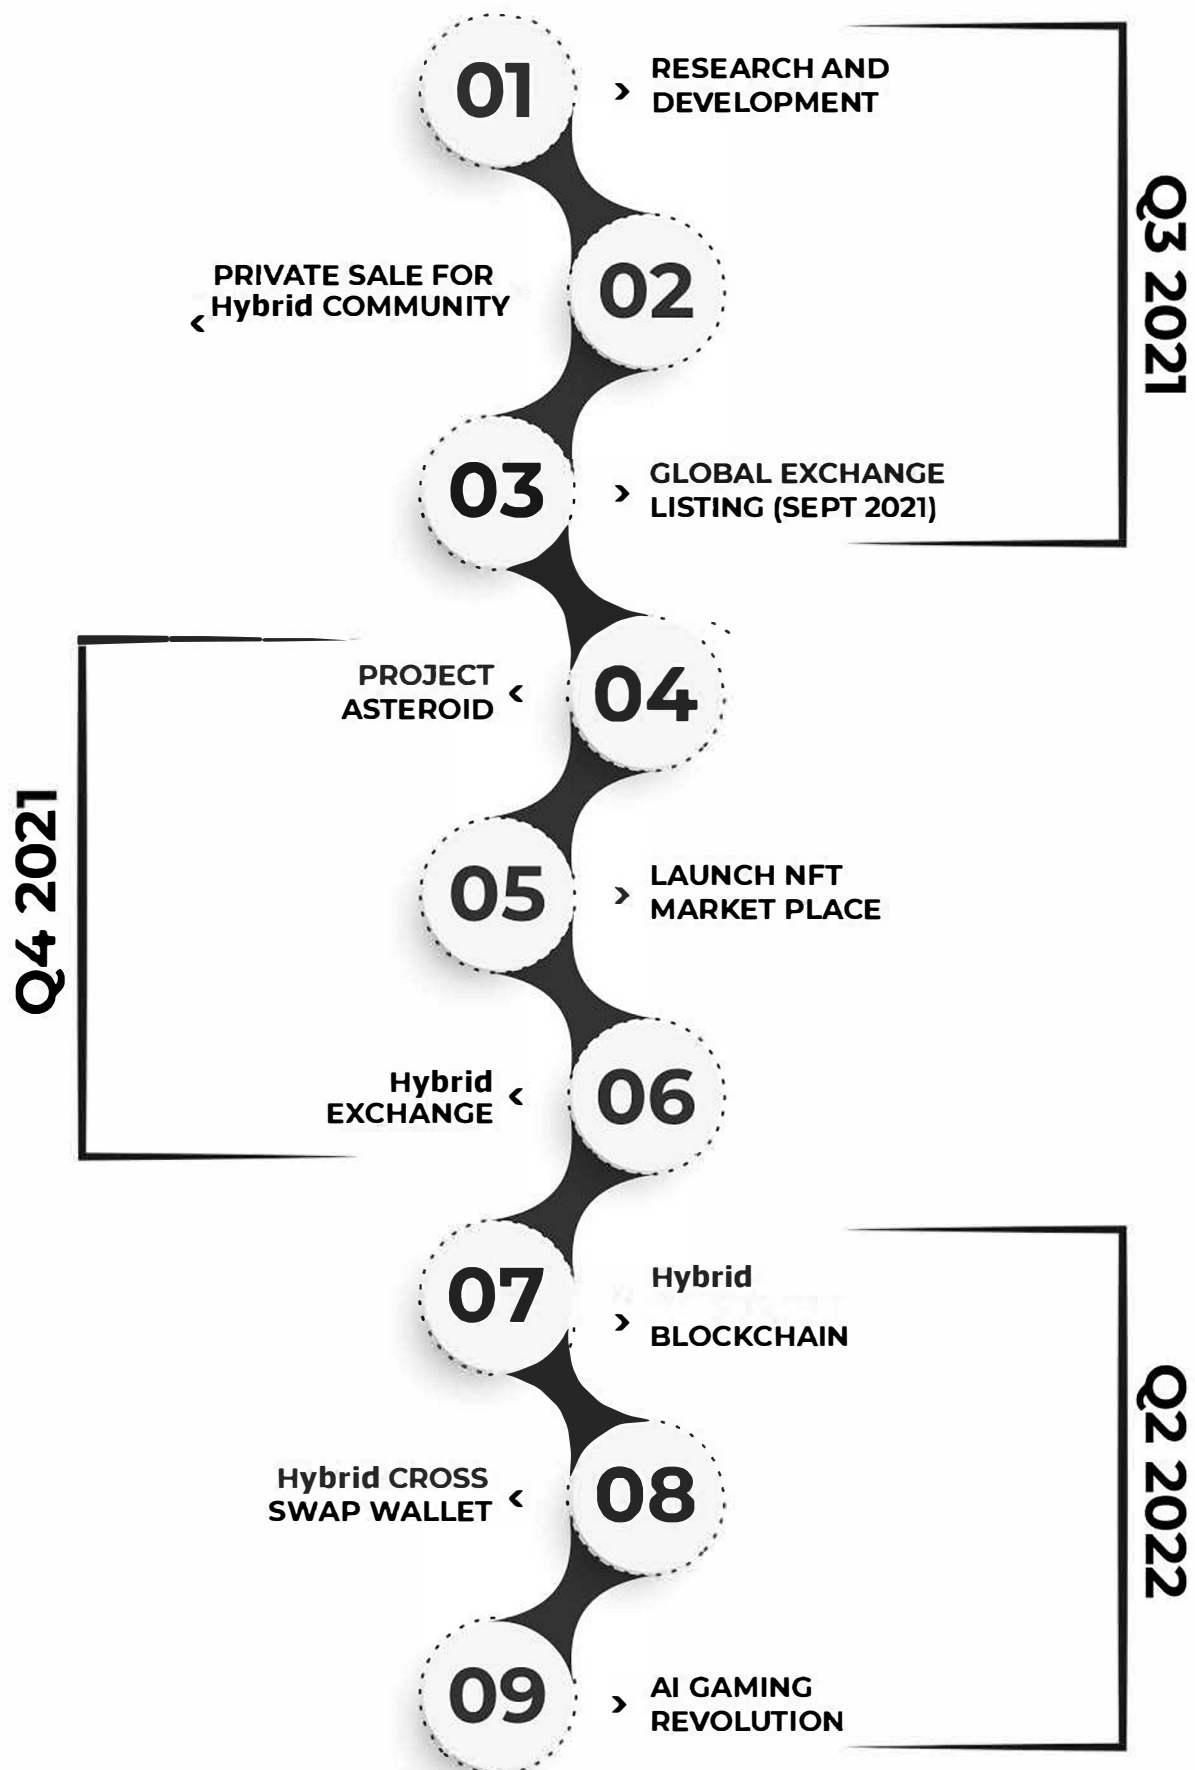

- Resist Economic Downturn

- Reliable Investment

8.6. PHILANTHROPY

"We'll distribute 5% of the liquidity acquired at the dusk of Private Sale to Covid relief programs and NGOs, ensuring our contribution to a greater good."

9. ROADMAP

10. INITIAL BURNING

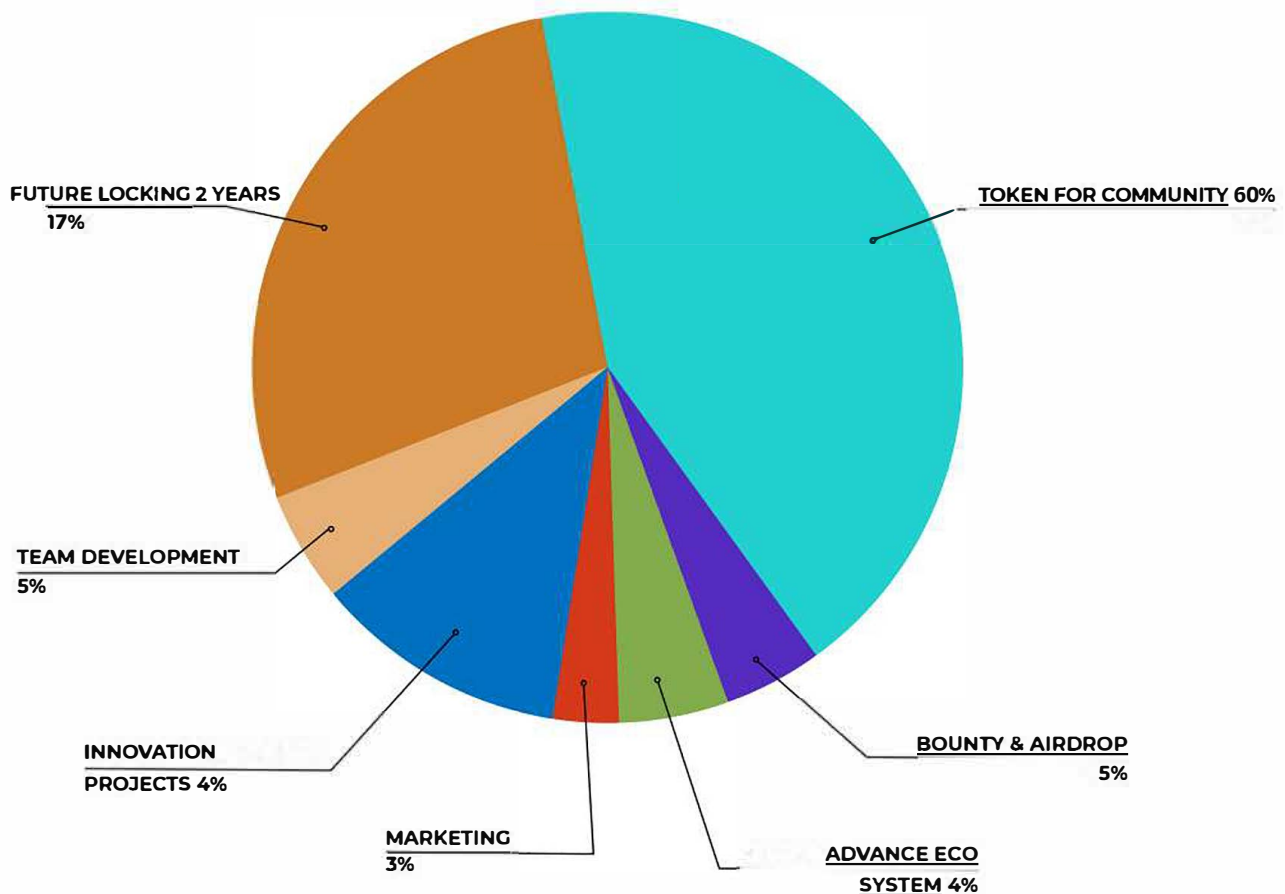

Due to our early adopters and the loyalty people have shown, a total of 800 tokens have been burnt. Following the token burn, the new total supply stands at 10,000 tokens.

the total supply of Hybrid token is 10,000 we have burnt 800 tokens and they are not included in the distribution.

11. INTRODUCING SYNTROPY TOKENOMICS & STAKING

With millions of tokens under our hands, Hybrid Tech has allocated and divided the tokens in a way that seems beneficial for every department.

The gist of token division in the form of pie is;
Available Token Supply: 10,000

12. LOCKED TOKENS

2500 Tokens will be locked for 5 years.

After the conclusion of lock-in period. Quarterly, 800 tokens will be released which will then be utilized in:

- Strengthening Global Enterprises and Blockchain Start-ups**
- Promoting Blockchain Gaming Community**
- Creating Banking & Governance Protocols**

NOTE: A few tokens are subject to farm depending upon the supply and demand.

13. INNOVATIVE PROJECTS

Tokens Dedicated: 11.5% of Available Supply
Expansion is at the core of the company and to make Hybrid a globally renowned token and blockchain giant a significant amount of time, money and energy needs to be invested.

The funds acquired by the distribution of token will be reinvested to **build games, Hybrid EX, DApps, and global brands.**

14. TEAM DEVELOPMENT

Finally, a team for the dream Hybrid. 5% of available tokens will be invested to expand the team of passionate and driven individuals.

15. MARKETING

3% of the available tokens will be directed to promote Hybrid on numerous channels. Also various other opportunities would be created for the members, who interested to show support and help team develop a sustainable system which would be accepted globally for price boost.

This would ultimately mean more support globally that would play a key role in keeping prices stable and high so buckle up for the ride, we all will make profit out of this for sure.

Cheers to Hybrid Family.

16. REVENUE STREAMS

16.1. Hybrid GAMES

Artificial intelligence (AI), Virtual Reality (VR), Augmented Reality (AR), and Haptic technology have transcended the gaming sphere to an entirely surreal sci-fi galaxy. These technologies fused with blockchain will create an unparallel array of games.

Revenue from the downloads of these games will be further invested to strengthen and advance the gaming community while benefitting Hybrid.

16.2. UTILITY APPS

The demand for **gaming, utility, productivity, and communication apps** is perpetual.

Hybrid, the tech promoter and specialized gaming and app developer, aims to build business and personal assistant apps like **Findersnap**. This app will solve the raging issue of cellphone theft. It is formulated to capture the necessary information of the device and send it to the cloud server every time a third-party intervention occurs. The cloud storage will safeguard the data no matter the times thief reset a cell phone. Hence, Findersnap aims to be the next-gen device finding utility app.

Complex the problems, even better the solutions!16

16.3. CRYPTO EXCHANGE & WALLET

Daily millions of trade transactions occur on crypto exchanges worth billions of dollars, and the volume of trading is proliferating daily. With a more advanced exchange and wallet platform, traders and investors will get benefited.

With every trade, nominal fees will be charged to the traders, and with this influential audience, Hybrid and Hybrid Wallet can book substantial profit.

Hybrid holistic approach proposes to provide 360° support to blockchain and crypto consumers.

16.4. DECENTRALIZED APPS

Dapps (Decentralized Apps) are a growing movement of applications that are developed to bring positive reinforcement to blockchain based business models or invent new startups.

Hybrid dapps are projected to run on Hybrid Blockchain, empowering our mega projects such as the **JUICE**, one of its kind decentralized social media network.

16.5. TOKEN DEVELOPMENT

The Asteroid will be an innovative token for investors to invest in global real estate to earn profits.

When the economy is proliferating, and governments lay more significant incentives on developing real estate and infrastructure, the Asteroid token will reap profits to holders and investors.

Asteroid tokens will offer a convenient opportunity to investors looking for portfolio diversification and long-term capital appreciation.

THIS IS NOT THE END

Instead, the beginning.

A beginning of what revolution truly means!

Be a part of this revolution

or remain a witness to the metamorphosis of the decentralized sphere.
